

## Syllabus

### HCS 270 Ethical Considerations in Health Care

#### General Information

---

**Date** May 13th, 2024

**Author** Heather Reece-Tillack

**Department** Health Science and Human Performance

**Course Prefix** HCS

**Course Number** 270

**Course Title** Ethical Considerations in Health Care

#### Course Information

---

**Catalog Description** The purpose of this course is to involve the student in reading and discussing medical issues from an ethical perspective to create depth in our awareness of the moral problems that cannot be ignored and more often than not, cannot necessarily be solved. The scope of this course will entail examination of different ethical approaches to moral problems in medicine and their success or failure in a broad range of medical issues, including but not limited to: the physician-patient relationship, the role of the healthcare provider, euthanasia and death with dignity, rights to health care/costs of health care and an examination for important concepts such as autonomy, paternalism, rights, consent, and confidentiality.

**Credit Hours** 3

**Lecture Contact Hours** 3

**Lab Contact Hours** 0

**Other Contact Hours** 0

**Grading Scheme** Letter

#### Prerequisites

---

None

#### Co-requisites

---

ENG 103

## First Year Experience/Capstone Designation

---

This course is designated as satisfying the outcomes applicable for status as a Capstone Course

## SUNY General Education

---

This course is designated as satisfying a requirement in the following SUNY Gen Ed category

Humanities
